

Procedures for Final Work - Mathematical Analysis

The Final Work of the discipline “Mathematical Analysis” should be presented in a form of an academic article. We will follow the steps:

1. **2016-09-06**: Definition of a problem
2. **2016-09-20**: Determination bibliographical references and a careful reading and reviews -
3. **2016-10-04**: Preliminary Concepts
4. **2016-10-18**: Method
5. **2016-11-01**: Results
6. **2016-11-22**: Conclusion
7. **2016-12-06**: Introduction, Abstract and Title. Conclusion of the work.
8. **2016-12-13**: Presentation of the work.

Below, find some observations:

- Each of the previous steps will be given a score of 100 with a weight of 60% of the total score. The whole text will be given a value of 40%.
- On August 30, we will have a exercise in the classroom to prepare for the definition of the problem.
- For the conference, the suggestions are the model of Dincon and SBAI conference.
