### **Qualifications**

2007: Ph.D., Genetics, Universidade Federal de Minas Gerais, Brazil

2004-2005: Visiting researcher, University of Victoria, Canada

1999: B.Sc. Biology, Universidade Federal de Viçosa, Brazil

### **Overview**

I lead the Genetic Resources Research Group at UFSJ, devoted to characterizing and understanding the Neotropical genetic diversity, particularly of freshwater fish of ecological and fisheries relevance in South America. We use traditional molecular biology, next-generation sequencing and bioinformatics to craft the development of biotechnological tools (DNA markers and peptides) to be applied in conservation and production.
